SELECTMEN'S REPORT

Deering, having been projected the fastest growing town in the state through the year 2000, has created a dynamic increase in the activities involving the planning and managing of all Town business.

One part of regulating the growth is the updating of the Town Master Plan, which is already in progress under the capable auspices of the Planning Board chaired by H. Robert Pilley; the Conservation Commission chaired by Robert Compton; and the Zoning Board of Adjustment chaired by Michael Hays. Completing this Master Plan will cost \$10,000 and is supported by the Selectmen.

Another proposal with far reaching ramifications is the suggestion that the long overdue highway bypass around Hillsboro follow a southern route through a portion of Deering; thus creating better access to West Deering, an improved approach to Route 149, and a potential commercial district broadening the tax base of the Town. This southern bypass route is also supported by the Board of Selectmen.

The Board of Selectmen is satisfied that the Town will enjoy improved fire protection by the purchase of a new KME Fire Engine which is housed at the Old County Road Station; and thank Chief William Edes and his Firefighters, the Board of Fire Wards, and the Rescue Squad for their continued fine service to the Town of Deering.

The Highway Department, in spite of the heavy damages incurred in the spring flood, succeeded in completing all of their proposed improvements in a timely and effective manner. The board commends Highway Agent Peter Beard and the Highway Crew for their

efforts and cooperation during the spring storm and throughout the year and look forward to working closely with the Highway Department during the coming year.

Growth has not left the Police Department unchanged, resulting in an increased budget to provide more hours of patrol with two officers in the cruiser during high risk hours. We have confidence that these new operating procedures will keep up with the expanding needs of the Town. The Board thanks Chief John Mitchell and the Police Officers for the dedicated service they have provided.

The Planning Board is proposing a Capital Improvement Program guided by Richard Mooney. While the Selectmen do not wish to limit any citizen participation it has received in the past, we ask your continued effort be directed to this Planning Committee which the Board heartily supports.

The Board wished to thank all of the citizens who have given their advice and suggestions as well as their time to make Deering a better Town.

DEERING POLICE DEPARTMENT REPORT

At this time I would like to thank the Board of Selectmen, the residents of Deering, and my fellow police officers for their support this past year.

With the increase of growth Deering is experiencing, unfortunately there is also an increase in crime. For the year 1987 your police department has answered 1,396 calls, and made 63 criminal arrests, an increase of 53 over 1986.

Your continual assistance in notifying us when you see a suspicious vehicle or person is greatly appreciated and helps us all in our fight against crime.

In 1987 your department has answered the following calls or complaints:

Motor Vehicle-----	78	Dog Complaints-----	56
Accidents-----	46	D.W.I.-----	14
Assist Motorists-----	70	Family Disputes-----	58

DEERING FIRE AND RESCUE REPORT

The Deering Fire Dept. has answered an increasing number of calls this year. We have also supplied mutual aid to Hillsboro, Weare, and Antrim. These towns have also supplied mutual aid to Deering.

This year we lost a pump and a transmission in 84M1 (pumper stationed at County Rd. Station). This truck is the oldest in the Dept., and is the truck we are planning on replacing this year. I brought this problem to the attention of the fire wards and the selectmen, and a decision was made to look into leasing the truck we are going to ask the town to purchase this year.

As in the past, members of the department have continued their fire service training. The men have also taken time to give fire prevention presentations at several schools.

We had the opportunity to work closely with the police, highway departments during the flooding we experienced this past spring. I was very pleased with cooperation, and professionalism shown by all. In an emergency of this size, it is good to know that through teamwork the job can be accomplished.

As always the Selectmen, Fire Wards, myself, and the men of the Deering Fire and Rescue wish to thank the residents of Deering for their continued support, and their efforts in fire prevention. It takes all of us to make this a safe town to live in. If at any time you have a problem, question, or suggestion, please feel free to call myself, the fire wards, or the selectmen. This is your fire department, and your input is important to the growth and development of the Deering Fire and Rescue.

William M. Edes
Fire Chief

TOWN FOREST FIRE WARDEN & STATE FOREST RANGER REPORT

Between July 1986 and June 1987, we experienced fewer fires than normal. The three leading causes of forest fires were children, fires kindled without written

permission of a Forest Fire Warden and debris burning. All causes are preventable, but only with your help.

Enforcement of a state timber harvest regulation is the responsibility of State Forestry officials. Our state has excellent timber harvest regulations; however, your assistance is needed. If you know of a logging operation and suspect a state timber harvest tax law may be violated, call your Forest Fire Warden, or Concord Forest Protection Headquarters at (603) 271-2217.

If you own forest land, you became responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. Contact your Board of Selectmen for timber tax forms.

DEERING CONSERVATION COMMISSION ANNUAL REPORT

The Deering Conservation Commission spent much of 1987 actively reaching out to inform residents about important issues such as water quality, septic awareness and wetland protection. The sharp increase of new homes in town is clearly evident in the changing landscape in Deering, making the task of protecting and preserving our natural resources more important than ever.

One far-reaching accomplishment in 1987 was the drafting of the "Wetland" ordinance for the town. This document represented months of study and review by commission members of wetlands protection procedures already adopted at the Federal, State and local levels.

The annual clean-up day in April was one of most suc-

cessful on record in terms of volunteer involvement and roadside trash collected.

In June, the commission sponsored two young people to attend youth conservation camp. A third young person was co-sponsored by the Deering Fish & Game Club. Young men and women who attend conservation camp are trained to become conservation leaders in their schools and communities. Campers learn about our renewable natural resources: forests, soil, water and wildlife.

This summer, Deering participated in a regional "Home Toxic Waste Clean-up Day", co-sponsored by the Deering Rescue Squad. The event offered townspeople an opportunity to dispose of household toxic waste, such as chemicals and solvents, safely and responsibly.

Conservation commission members knocked on every cottage door on Deering Lake this summer to discuss water quality issues. This informal approach touched on important subjects like septic system leaching, dredge & fill procedure, and lake testing. the commission plans to make lake canvassing an annual event.

A unique "Lay Monitoring Program" was also started in the summer of 1987 for Deering Lake. Volunteers take samples of lake water in the months of July, August, and September and state biologists analyze and interpret the data. This collection of key information over time will help identify changes in the lake's water quality and help with decision making concerning the uses and protection of Deering Lake. This ongoing testing program is being made possible by a generous contribution from the Deering Association. the complete 15-page 1987 report for Deering Lake is posted at the Town Office bulletin board.

The commission plans to continue work on wetlands mapping. We are currently working with the planning and zoning boards on an update of the town master plan. Commission members continue to perform on-site inspections of proposed new building sites in Deering. A major focus in 1988 will be to pursue land protection

opportunities presented by the Trust for New Hampshire Lands.

The Conservation Commission meets every third Monday of each month at 7:30PM at the Town Hall, and welcomes attendance by concerned citizens.

ZONING BOARD OF ADJUSTMENT ANNUAL REPORT

1987 was a busy year for the Zoning Board of Adjustment. Three requests for Special Exception and three requests for Variances were heard by the board. In several cases these hearings required multiple meeting and site reviews. Based upon our experiences with these various requests during 1987, the ZBA has submitted recommendations for modification and clarification of Deering's Zoning Ordinance to the Planning Board.

In addition to regular board meetings, several members have attended educational meetings sponsored by the NH Municipal Association, which dealt with zoning enforcement, court cases regarding zoning decisions and master plan requirements.

Currently, the Zoning Board has the required five members, but we still need two alternates to ensure business can be conducted at our scheduled meetings. If anyone is interested in participating on the ZBA as an alternate member, he/she should contact the town secretary. Previous experience in zoning is not required, however an individual must be prepared to become familiar with town zoning ordinances, state statutes relating to zoning and be able to participate in monthly meetings. The ZBA meets on the third Monday of each month at the Town Hall.

PLANNING BOARD ANNUAL REPORT

The year of 1987 has been a busy one for the Planning Board. Regional economic conditions have created a period of growth and development for the town. Office of State Planning (OSP) population projections (May 87) place Deering at the top of a statewide list. Projections indicate that Deering will see a doubling of town population by 1995. Sensible administration, combined with the proper framework of Ordinances and Regulations is the only way to guarantee our future. Ordinances, Regulations and Plans must guide our future growth so that we may always enjoy what is Deering, afford what is Deering and protect what is Deering. this, is the Planning Board's Challenge.

The Planning Board is presently receiving guidance from the Central NH Regional Planning Commission (CNRPC) and the OSP for updating town plans. The Planning Board with help from other town boards, groups and agents is working on updating the Master Plan. In support of this work has been the Master Plan questionnaire in which an excellent 45% return rate was achieved. Tabulated results sent to the CNRPC were analyzed for statistical trends and correlations with OSP data. Questionnaire inputs combined with inputs from other town groups in compliance with state regulations will form the basis of the Master Plan. It is the intent to have a Master Plan which identifies specific attributes of the town: historical areas, watersheds & wetlands, soil types, topography, flood plain, residential & commercial areas, conservational & recreational areas.

National Flood Insurance Program Development Ordinance was incorporated into the Subdivision Regulations on March 31st. Adoption and inclusion of these requirements was mandatory if Deering was to remain in the National Flood Insurance Program.

During the year 11 subdivision applications were received. Of the 11 applications received 3 were major subdivisions, 7 were minor subdivisions and 1 was a minor lot line adjustment. The Board approved 3 major subdivisions, 5 minor subdivisions and 1 lot

line adjustment.

This is the second year of membership in the Central New Hampshire Regional Planning Commission. Personally I have found it a great forum for discussion of regional planning issues. In addition CNHRPC staff planners have helped the town significantly with regulations, ordinances and planning issues.

The Planning Board meets the second Wednesday of the month at 7:30PM at the Town Hall, and attendance by concerned citizens is always welcome.

CENTRAL NH REGIONAL PLANNING COMMISSION REPORT

The Central NH Regional Planning Commission is an association of municipalities in central New Hampshire. The purpose of a regional planning commission is to prepare a coordinated plan for the development of a region. RPC's are an extension of local government, are operated by member municipalities, and staff provides support and technical assistance to the Commission and member communities.

Recent and current projects include the regional transportation plan, regional septage action plan and regional housing & community development plan. The Commission is also producing models and outlines for zoning ordinances, subdivision regulations, site plan review regulations, capital improvements plans, and master plans.

In the year ending November 30, 1987, CNHRPC activities in the Town of Deering included:

- Providing review comments and statistical comparisons for the 1987 master plan survey.

- Assistance to the Planning Board in preparing a mailing list for consultants for master plan.

- Preliminary discussions on planning for the bypass.

REPORT OF THE BUILDING INSPECTOR

The years pass by and progress seems to be rolling right along. I hope this is all for the better of the Town. Most everyone seems to think so.

The report of Deering being the faster growing town in N.H. might be, there has been 87 building applications this year, all but one was granted.

33 of these were new home construction; 16 additions and roof alterations; 6 garages and carports; 17 sheds and utility storage buildings; 11 patios, decks, and breezeways; and 4 office and business expansions.

**REPORT OF THE CONCORD REGIONAL SOLID WASTE
RESOURCE RECOVERY COOPERATIVE**

New Hampshire Industrial Development Authority Revenue Bonds in the amount of \$48,000,000. were issued in August to finance construction of the new facility. Ground breaking was held on September 10, 1987. It is anticipated that the facility will go on line by June 1989. All necessary permits, including permission to deposit the incinerator ash in the Concord landfill have been received.

LIBRARY TRUSTEES REPORT

Yes, the Deering Library is small, but so is Deering. The Library is also only open four hours a week, but there is no paid staff. Your elected trustees have spent many hours improving the collection and reorganizing your Library for use from June to September. They staff the Library and arrange the well received story hours.

Winter hours were increased at the Town Hall by opening on Thursdays from 5:00 PM to 7:00 PM. But residents still do not use their Library. Why?

Many changes were made as a result of our 1983 survey. We will conduct another survey in 1988 and keep trying to increase the use of the Library by all residents.

TRUSTEES OF TRUST FUNDS REPORT

In 1987 we continued the repair and leveling of grave stones in our cemeteries. The Keene Monument Company worked in the Wilkins Cemetery on 165 grave stones at a cost of \$4505.

In 1988 we hope to have the grave stone work done in the Goodall cemetery.

An unexpected expense in 1987 was the removal of a huge tree that went down in the West Deering cemetery during the wet snow storm of late April. Due to the size of the tree and the difficulty of access the cost was \$1000.

The expansion of the East Deering Cemetery by clearing and grading the rear parcel is an immediate necessity as we have fewer than twenty-seven grave sites left in town owned cemeteries. Expansion is a chief priority if we wish to continue to provide burial sites in our town.
